PROFESSIONAL SUMMARY:

Full-stack Software Engineer with 1.5+ years of experience, specializing in backend development with Node.js, Express.js, and RESTful API design. Contributed to national-level government projects (NBR EFDMS) involving device integration and middleware management. Experienced in cloud deployments (AWS EC2, VPS), CI/CD pipelines, and database architecture using MongoDB and PostgreSQL

AREAS OF EXPERTISE:

- ✓ Languages: JavaScript, TypeScript
- ✓ Backend & APIs: Node.js, Express.js, REST API, WebSocket
- ✓ Frontend: React, Redux, Context API.
- ✓ Databases: MongoDB, PostgreSQL | ORM/ODM: Prisma, Mongoose
- ✓ Cloud & Storage: AWS EC2, AWS S3, Cloudflare R2, Cloudinary
- ✓ DevOps & CI/CD: Docker, GitHub Actions, VPS Deployment
- ✓ Tools: Postman, Git/GitHub, Linux Server (Ubuntu), PM2, Nginx.

PROFESSIONAL EXPERIENCE:

SparkTech Agency.

Full Stack developer | February 01, 2026 — Present

- Developed and maintained backend services and APIs using Node.js and Express.js.
- Implemented real-time features using WebSocket and integrated with frontend.
- Containerized applications using Docker and Docker Compose for consistent development and production environments
- Designed and maintained CI/CD pipelines using GitHub Actions for automated deployment to AWS EC2 and VPS
- Managed cloud storage and media assets using AWS S3, Cloudflare R2, and Cloudinary
- Worked with PostgreSQL (Supabase, Prisma) and MongoDB for database design and integration
- Configured and maintained VPS environments using Nginx reverse proxy and PM2 process management

Project involvement:

- *Travel Agency Platform* — Developed and maintained backend services using Node.js, Express.js, and MongoDB (Atlas). Implemented real-time admin notifications using WebSocket integrated with the frontend. Containerized applications using Docker and automated deployments via GitHub Actions to AWS EC2, with media storage on Amazon S3.
- *Music Streaming App* — Developing backend services for audio streaming, authentication, and playlist management using Node.js, Express.js, and PostgreSQL (Supabase). Managing media storage using Cloudflare R2. Containerizing applications using Docker and implementing CI/CD pipelines for automated deployment.

Alawaf Technologies Ltd.

Junior Software Engineer | August 01, 2025 — December 31, 2025

- Developed a full-scale HRMS platform using the MERN stack following Agile methodologies
- Integrated ZKTeco biometric attendance devices with HRMS backend for real-time attendance log syncing
- Designed RESTful APIs and structured database schemas for HR modules
- Built and integrated frontend components with backend APIs
- Deployed modules in Linux VM environments with separate test and production setups

Genex Infosys PLC.

Junior Software Engineer | April 01, 2024 - July 31, 2025

- Contributed to the national-level NBR EFDMS project — a VAT collection system connecting Electronic Fiscal Devices (EFD/SDC) with NBR's central software infrastructure
- Handled device integration and middleware management for EFD/SDC units deployed at business endpoints
- Responsible for ensuring seamless communication between VAT collection devices and the NBR backend system
- Built a JavaScript-based portal and report dashboard using Node.js, Express.js, MySQL, and React
- Supported backend development and system operations across Linux environments
- Performed API testing and validation using Postman

Genex Infosys PLC.

Software Engineer (Intern) | October 03, 2023 - December 31, 2023

- Built an Inventory Management System using the MERN stack
- Contributed to NBR's financial project as an intern, gaining exposure to EFD/SDC device implementation and testing.

RELEVANT PROJECTS:

Cafe Management System

- Developed a full-stack cafe operations web app using MERN stack
- Features include order management, menu handling, and billing

GitHub Link: [git/Cafe-management-System](https://github.com/tanviralamomi/Cafe-management-System)

Inventory Management System

- MVC-based full-stack app with REST API using MERN stack
- Features include stock tracking, product management, and reporting

EDUCATION:

2024 | B.Sc. in C.S.E. | American International University - Bangladesh.

2017 | Higher Secondary Certificate | Birshreshtha Munshi Abdur Rouf Public College, Dhaka.

2015 | Secondary School Certificate | Bindu Basini Govt. Boys' High School, Tangail
